SERGEANT AT ARMS AND DOORKEEPER OF THE SENATE

Appropriations, 1998	\$64,833,000
Budget estimate, 1999	63,511,000
Committee recommendation	60,511,000

The Committee recommends the appropriation of \$60,511,000 for expenses of the Sergeant at Arms, which is \$4,322,000 below the amount appropriated for fiscal year 1998 and is \$3,000,000 below the budget request. During the Committee's hearing on the fiscal year 1999 funding request, the Office of the Sergeant at Arms requested a \$3,000,000 reduction from the budget estimate due to savings found through reorganization.

At the request of the Rules Committee and based on current practice, the Sergeant at Arms is directed to provide, within the Sergeant at Arms current expense budget, subject to the prior approval of the Rules Committee funds, not to exceed \$200,000 total for the party organizations for the purchase of equipment in addition to office automation equipment. The funds shall be allocated \$100,000 to each party organization through either the conference or policy committees.

The Committee commends the Sergeant at Arms on the implementation of its recent reorganization. The objective of the reorganization was to consolidate and streamline the operation of the Office of the Sergeant at Arms. The reorganization has resulted in a reduction in the budget request. The Committee has approved the Sergeant at Arms' new budget structure which reflects three major divisions: Operations Division, Capitol Division, and Staff Offices Division.

The Operations Division provides most of the day-to-day services and products of the Sergeant at Arms. The Chief of Operations provides overall management, policy guidance, and strategy development and execution for all operations units. Central operations provides printing, mailing, parking, and the photographic and recording studio services. Office operations centralizes functions which were previously handled by the Service Department, the Computer Center, and the Telecommunications Department. These functions include the procurement, installation and maintenance of all desktop computer, LAN's, and office equipment. Technical operations consolidates the information technology planning and infrastructure operations which were previously provided by both the Computer Center and Telecommunications Department. Finally, a portion of the funds are provided on a multiyear basis for the long-range strategic initiatives of the office.

The Capitol Division centralizes all functions related to the maintenance and administration of the Senate wing of the U.S. Capitol Building. The Staff Offices Division includes finance, human resources, counsel, procurement, and customer relations. The Committee looks forward to monitoring further improvements in management and service delivery in the Sergeant at Arms operations.

The following table sets forth the apportionment of funds under this appropriation. Any deviation of more than 10 percent cumulatively to or from either account from the stated levels for each item will require the customary prior approval of the Committee.

This resolution required a reprogramming from the resolution and reorganization reserve to the line item for the Senate observer group to fully fund the account for fiscal year 1997. Other examples include: payments made to displaced committee staff members authorized by Senate Resolution 9, agreed to January 7, 1993, paying for Senator-elect expenses, and the extension of the Office of Fair Employment Practices.

Senate Arms Control Observer Group.—Provides funding for the Senate Arms Control Observer Group, under the authority of Senate Resolution 105, agreed to April 13, 1989, as amended. SENATORS' OFFICIAL PERSONNEL AND OFFICE EXPENSE ACCOUNT

Appropriations, 1998	\$228,600,000
Budget estimate, 1999 ¹	243,881,000
Committee recommendation	239,156,000

¹ Reflects budget amendment.

The Committee recommends an appropriation for fiscal year 1999 of \$239,156,000. This amount is \$10,556,000 greater than the fiscal year 1998 level and \$4,725,000 below the budget request.

This account funds salaries and benefits of Senators' staffs as well as the office expense allowance for Senators' offices. These funds were formerly carried under several accounts including: "Administrative, clerical and legislative assistance to Senators;" "Agency contributions," under the heading "Salaries, officers and employees;" and "Official office expense allowances." Those separate appropriations were merged into this single account in Public Law 100–137.

The Senators' official personnel and office expense allowance [SOPOEA] is comprised of three components. Two of these are for salaries of personnel in Senators' offices. The allowance for administrative and clerical assistance is based on the population of States, beginning with States with a population of fewer than 5 million people to States with a population of 28 million or more. The allowance has been increased by \$50,000 per office over the fiscal year 1998 level. The table illustrates the allowances per population category and the States which fall into those categories.

The second component of the salaries allowance is for legislative assistance to Senators, as authorized by Public Law 95–94. This allowance provides funding for three positions in each Senator's office at an annual rate of \$132,159 for a total of \$396,477 per office, or \$39,647,700 for all 100 Senators.

The third component of the SOPOEA is for office expenses. Each Senator's office is allocated an amount for office expenses, as displayed in the following table including the Committee on Rules and Administration's reallocations of the official mail. In addition, an amount of \$200,000 is provided to cover additional expenses that

may be incurred in the event of the death or resignation of a Senator, and to provide for transitional expenses during election years subject to regulations set by the Committee on Rules and Administration with respect to official mail.

It should be noted that the amounts provided for the various components of the SOPOEA are entirely fungible. Amounts provided for salaries may be used for expenses, and vice versa, subject to regulations set by the Committee on Rules and Administration with respect to official mail.

The following table illustrates the several components of the SOPOEA.

According to the most recent employment data compiled by the Secretary of the Senate, as of March 31, 1998, there were 3,903 individuals employed in Senators' offices throughout the United States and covered by this appropriation.

In addition to providing funds for compensation of employees within Senators' offices, this appropriation also provides for agency contributions for those employees; that is, the Senate's share, as an employer, of the various employee benefit programs for which Senate employees are eligible. These payments are mandatory, and fluctuate according to the programs in which employees are enrolled, the level of compensation, and the degree of participation. Budget requests for this account prepared by the Financial Clerk must be based on both experience and evaluation of trends. The fiscal year 1999 request for this account anticipates \$55,880,000 in agency contribution costs.

The amount recommended by the Committee for the SOPOEA is less than would be required to cover all obligations that could be incurred under the authorized allowances for all Senators. The Committee is able to recommend an appropriation of a lesser amount than potentially necessary because Senators typically do not obligate funds up to the absolute ceiling of their respective allowances. In fact, a number of offices spend less than their total

allowances. Evidence of this can be found in the semiannual report of the Secretary of the Senate. At the direction of this Committee in the Fiscal Year 1996 Legislative Branch Appropriations Act, the Secretary's report now includes summary information on each Senator's authorized allowance, expenditures made, and the balance, if any.

In the alternative, the Committee could recommend an appropriation to fully fund the sum total of all the authorized allowances including funding necessary to cover administrative provision section 8. For fiscal year 1999, that would mean an appropriation of \$250,634,000, \$11,478,000 more than recommended.

SENATE OFFICIAL MAIL COSTS

Appropriations, 1998	\$300,000
Budget estimate, 1999	300,000
Committee recommendation	300,000

For the official mail costs of the Senate, the Committee recommends an appropriation of \$300,000, which is the same as the budget request.

ADMINISTRATIVE PROVISIONS

SECTION 1. This section provides for the official mail allocation to each Member's Senators' official personnel office and expense account. A funding level of \$7,400,000 has been provided for Member office mail.

SEC. 2. This provision increases from \$10,000 to \$35,000 the authority to pay from the Office of the Chaplain Expense Revolving Fund for official expenses incurred by the Chaplain of the Senate.

SEC. 3. This provision extends the authorization of the Arms Control Observer group until December 31, 2000.

SEC. 4. This provision authorizes the President pro tempore of the Senate the ability to appoint one consultant, and allows all consultants to be paid at an annual or daily rate of pay.

SEC. 5. This provision establishes the Leader's Lecture Series and provides the Secretary of the Senate with the authority to pay expenses incurred on behalf of the series. Funding of \$30,000 is provided within the Secretary's current budget.

SEC. 6. In January 1998 the Senate Rules Committee reorganized and consolidated the Senate Beauty Shop and Senate Barber Shop into the Senate Hair Care Services operation in an effort to increase efficiency and reduce costs. This legislation creates, effective October 1, 1998, a revolving fund for the Senate Hair Care Services within the contingent fund of the Senate. All income generated by the Senate Hair Care Services will be deposited into this fund, with all expenses, including compensation and benefits, to be paid from the revolving fund. The existing Senate Barber Shop and Beauty Shop revolving fund, which was limited to paying expenses for supplies only, will be dissolved and any funds remaining in that fund will be transferred to the Senate Hair Care Services revolving fund. This legislation also grants the Sergeant at Arms the authority to appoint and fix the compensation of the employees of the Senate Hair Care Services.

SEC. 7. This provision increases the funding available to the Committee on Rules and Administration. Section 16(c) of Senate resolution 54, agreed to February 13, 1997, authorized \$1,375,472. Public Law 105-55, October 7, 1997, increased this authorization to \$1,407,254. This provision authorizes an additional \$150,000 to bring the total to \$1,557,254.

SEC. 8. This provision increases by \$50,000 the allowance for administrative and clerical assistance.

SEC. 9. The Committee has received a report from the Sergeant at Arms in response to language included in the legislative branch Appropriations Committee report for fiscal year 1998 directing the office to report on how they could incorporate alternative fuel vehicles [AFV] into their fleets consistent with their needs and requirements. The Sergeant at Arms reports that of the 20 vehicles in its fleet, three are clean fuel vehicles. The Committee is encouraged by the Sergeant at Arms' statement that: "the Senate can do more to promote and utilize AFV's. The Sergeant at Arms is committed to increasing the number of AFV's under its direct control and to promote their use with other Senate offices which are assigned fleet vehicles."

This provision provides the Sergeant at Arms, with the prior written approval of the Rules Committee, the authority to enter into agreements with public or private parties for the purpose of demonstrating the use of AFV's consistent with the Energy Policy Act of 1992. The Sergeant at Arms shall provide to the Rules Committee and the Appropriations Committee a detailed proposal including estimates of all costs associated with a demonstration and how those costs will be paid. No vehicle may be used for demonstration purposes beyond 90 days.

This reflects a decrease of \$193,000 from the fiscal year 1998 funding level and is the same as the request.

CONGRESSIONAL BUDGET OFFICE

SALARIES AND EXPENSES

Appropriations, 1998	\$24,797,000
Budget estimate, 1999	25,938,000
Committee recommendation	25,671,000

The Committee recommends an appropriation of \$25,671,000 for the Congressional Budget Office. The amount is \$267,000 below the budget estimate and \$874,000 above the fiscal year 1998 level.

The Committee is concerned that, in its monthly budget reviews, the Congressional Budget Office has failed to reflect the off-budget status of Social Security. A letter to the CBO from Senators Hollings and Dorgan on this matter, as well as CBO's response thereto follow:

U.S. SENATE,
Washington, DC, May 21, 1998.

Dr. JUNE O'NEILL,
Director, Congressional Budget Office,
Washington, DC.

DEAR DR. O'NEILL: The May 6 CBO monthly budget review estimated that the Federal budget fiscal year surplus would fall between \$43,000,000,000 and \$63,000,000,000. All of the newspapers dutifully reported that the CBO now predicts that level of surplus.

Unfortunately, your report provides the American people with inaccurate information. It is true that if you pull in the Social Security trust funds, among others, the "unified budget" will show a surplus in this fiscal year. But you well know that the Federal Government will continue to increase its Federal indebtedness at the same time that you are projecting a surplus because your calculations use the Social Security trust funds to show that surplus.

Section 13301 of the Budget Enforcement Act couldn't be more clear. You have a duty to provide the American people with all of the relevant data about this country's fiscal policy. That includes not only a "unified budget" calculation, but also an estimate of what our deficit will be if you do not use the Social Security trust funds as part of the regular operating budget.

Inasmuch as Congress has passed legislation prohibiting that from happening, we believe you have a responsibility to report accurately to the American people that, until revenues exceed expenditures without using the Social Security trust fund, there is no "budget surplus."

We hope you will make the appropriate adjustments in your monthly report in order to comply with section 13301 of the Budget Enforcement Act.

Sincerely,

ERNEST F. HOLLINGS,
U.S. Senator.
BYRON L. DORGAN,
U.S. Senator.

CONGRESSIONAL BUDGET OFFICE,
U.S. CONGRESS,
Washington, DC, June 2, 1998.

Hon. BYRON L. DORGAN,
U.S. Senate,
Washington, DC.

DEAR SENATOR: Thank you for the letter of May 21 from you and Senator Hollings regarding CBO's monthly budget review. I agree that CBO has "a duty to provide the American people with all of the relevant data about this country's fiscal policy," and I regret that the report you cited failed to report the on-budget deficit, excluding the surplus of the Social Security trust funds. In future issues of the monthly budget review, CBO will provide separate totals for on-budget programs.

I greatly appreciate your interest in CBO and its products. If you have any further concerns, do not hesitate to get in touch with me.

Sincerely,

JUNE E. O'NEILL,
Director.

ARCHITECT OF THE CAPITOL

The Committee has recommended a funding level of \$142,562,000 for all activities of the Architect of the Capitol pertaining to direct support of the Congress. Excluded are House items which are traditionally left for consideration by that body. Additional funds are recommended in title II of the bill for the Architect's activities relative to the structural and mechanical care of the Library's buildings and grounds, and the Botanic Garden.

The amount recommended in title I is \$12,984,000 below the fiscal year 1998 amount and \$35,538,000 below the budget estimate.

The following table shows the request and the Committee recommendation:

Appropriation	Fiscal year		
	1998 appropriation ¹	1999 request	1999 recommendation

CAPITOL BUILDINGS AND GROUNDS

CAPITOL BUILDINGS

SALARIES AND EXPENSES

Appropriations, 1998 ¹	\$44,477,000
Budget estimate, 1999	55,342,000
Committee recommendation	44,641,000

¹ Includes fiscal year 1998 supplemental of \$7,500,000 for rehabilitation of the Capitol dome.

The Committee recommends an appropriation of \$44,641,000 for salaries for the Architect of the Capitol, the Assistant Architect of the Capitol, other personal services, surveys and studies in connection with activities under the care of the Architect, and necessary expenses for the maintenance, care, and operation of the Capitol electrical substations of the House and Senate office buildings. The amount recommended is \$164,000 above the amount provided for fiscal year 1998 and represents a reduction of \$10,701,000 from the budget request. The Committee has included a \$20,000 limitation for travel related to work under the Architect.

The Architect of the Capitol's request includes funding for a number of design projects for the Capitol Police, including a master plan. The Committee believes that the most cost-effective approach to meeting the needs of the police would be to complete the master plan before proceeding with any other design plans. Therefore, the Committee has provided \$475,000 in design funds for the master plan. The master plan would include consideration of the police needs for a communication, command and control facility, an offsite delivery/screening facility, USCP training facility, chemical and explosive storage facility, vehicle maintenance facility, and K-9 facility. An additional \$1,000,000 in design funds are provided, subject to prior approval of the appropriate committees of the House and Senate, for additional security design plans for the police. The AOC is directed to work jointly with an individual appointed by the Police Board in defining the scope of work and implementation of a master plan. The amount of \$750,000 has been provided to the AOC for infrastructure support for the physical security initiatives of the Capitol Police Board. The Committee directs that a quarterly accounting of these funds be provided to the Appropriations Committees and the Capitol Police Board.

The Committee directs that no new Senate projects or activities other than those listed below be undertaken with funds provided

in this or previous appropriations acts without the prior written approval of the Committee, and that the Committee be notified in writing in advance of any new Senate projects or activities to be undertaken with the funds provided for annual maintenance, repairs, alterations, or miscellaneous improvements.

The Architect is to be commended for his personal dedication in addressing the financial management system in the office. The Committee remains concerned that a project of this magnitude requires the total devotion of an individual trained in this field. The Architect is strongly urged to consult with GAO and hire an individual from outside of the office to be the project manager with direct reporting authority to the Architect.

The Architect is requested to provide a quarterly report to the Rules Committee and the Appropriations Committee identifying the expenditure of funds provided for infrastructure support of the Capitol Police security upgrades.

The Committee has fully funded the Architect's request of \$650,000 for the new CAFM system (computer aided facilities management); however, the expenditure of these funds is contingent upon the prior approval of the appropriate authorizing and Appropriations Committees.

Funding has been provided, and may be expended with the prior approval of the Senate Rules Committee for design work for possible Senate Chamber upgrades for HVAC, ADA, lighting, and design funds for an upgrade of the cable television system.

The following table displays the request and the Committee recommendation.

The Committee recommends an appropriation of \$38,222,000 for the operations of the Capitol Power Plant. The amount recommended is \$4,290,000 above the amount provided for fiscal year 1998 and \$2,157,000 below the request.

Nearly 70 percent of the recommended amount is for the purchase of electricity from the local private utility, payment to the government of the District of Columbia for the provision of water and sewer services, and the procurement of boiler fuel, as displayed in the following table.

Purchase of oil	1,905,000
Water and sewer payments	1,800,000
Total	29,766,000

The balance of this appropriation supports a work force to operate and maintain the Power Plant. The Power Plant provides heat, light, power, and air-conditioning for the Capitol, Senate and House office buildings, and the Library of Congress buildings; heat, light, and power for the Botanic Garden and the Senate and House Garages; light for the Capitol Grounds' street, park, and floodlighting system; steam heat for the Government Printing Office and Washington City Post Office, also known as Postal Square; and steam heat and air-conditioning for the Union Station complex, Folger Shakespeare Library, the Thurgood Marshall Federal Judiciary Building, and the U.S. Supreme Court Building on a reimbursable basis.

With regard to the reimbursements, the Committee recommends that reimbursements continue at the fiscal year 1998 level of \$4,000,000.

LIBRARY OF CONGRESS
(EXCEPT CONGRESSIONAL RESEARCH SERVICE)
SALARIES AND EXPENSES

Appropriations, 1998:	
Salaries and expenses	\$227,504,000
Authority to spend receipts	(7,869,000)
Net, salaries and expenses	219,635,000
Budget estimate, 1999:	
Salaries and expenses	239,415,000

Net, salaries and expenses	232,915,000
Committee recommendation:	
Salaries and expenses	239,176,542
Authority to spend receipts	(6,500,000)
Net, salaries and expenses	232,676,542

The Committee recommends an appropriation of \$232,676,542 for salaries and expenses of the Library of Congress. The amount recommended is \$13,041,542 over the amount provided for fiscal year 1998 and \$238,458 below the budget request.

There is a decrease in the number of FTE positions from 4,083 to 4,070 FTE positions due to a reduction of 13 FTE's in the Cataloging Distribution Service. Due to absorbing within-grade increases, the Library has a number of unfilled FTE positions. The Committee has provided funds for 8 FTE's in the information technology area, 10 FTE's for the Congressional Research Service's succession planning effort, and 13 FTE's for additional security personnel to be consistent with Department of Justice minimum security standards for Federal facilities. An increase of six FTE's for the Copyright Office has been provided, the cost of which is paid through offsetting collections. Regarding external security, the Library is strongly urged to consult with the Capitol Police on external security matters. The Committee provides \$2,000,000 to the Library for a 4-year project to digitize Russian and United States collections for "The Meeting of the Frontiers" United States-Russian digital library.

The Committee recognizes the historical significance of the Lewis and Clark Expedition and its upcoming bicentennial in the year 2003. Therefore, the Committee directs the Library to use its collections to commemorate the bicentennial of the expedition, including: the digitization of existing materials, collaboration with other institutions in their efforts to celebrate the bicentennial, and consultation with the Congress on the use of those collections to commemorate the bicentennial. The Committee has provided initial funding of \$250,000 to support these efforts.

The addition of 8 new FTE's in the Information Technology Office will bring the total number of FTE's in that area to 195. The Library has distinguished itself in the technology area and has, and will continue to be, a significant resource for the Congress in addressing the year 2000 conversion. With the creation of the Senate's new Special Committee on the Year 2000 Technology Prob-

lem, additional expertise in this area will be necessary. The Committee expects that the Library will be called upon to provide technical assistance and encourages the Library to reprioritize its own technology initiatives in a way that will allow it to meet the needs of the Congress over the next few years.

In the conference report (H. Rept. 104-733) accompanying the fiscal year 1997 legislative branch appropriation bill (Public Law 104-197), the Congressional Research Service was directed to coordinate, and the Library of Congress was directed to provide technical support, for the development of a legislative information retrieval system to serve the Senate.

The Senate has undertaken a major program to rebuild its systems for creating and managing its legislative information. Although this program is going to take a number of years to complete, the Senate is already realizing benefits from this program. The Secretary of the Senate, with the technical support of the Sergeant at Arms, is providing Senate offices floor amendments electronically minutes after being introduced on the floor.

The retrieval system being designed and maintained to provide a comprehensive legislative resource by the CRS and supported by the Library is proving to be a valued recourse for Senate and congressional office. CRS and the Library are, therefore, directed to continue their development of the legislative retrieval system for the Senate and provide an annual report outlining the strategic objective of this initiative.

SALARIES AND EXPENSES

Appropriations, 1998	\$46,561,000

The Committee recommends an appropriation of \$46,895,000 for salaries and expenses for Books for the Blind and Physically Handicapped. The amount is \$334,000 above the enacted amount and is \$1,250,000 below the request. The Committee has approved the Library's request to use \$800,000 in savings from a reduction in the rental rate for the purchase of additional talking book machines.

This appropriation supports a National Reading Program for blind and physically handicapped citizens. Books and magazines in braille and various recorded formats are produced by the National Library Services for the Blind and Physically Handicapped for distribution through a network of State and locally supported libraries. At present, 57 regional libraries in 49 States, the District of Columbia, the Virgin Islands, Puerto Rico, and Guam house and circulate books and magazines to eligible readers. Eighty-three sub-regional libraries in 17 States assist at the local public library level; 53 libraries and 4 cooperating agencies distribute sound reproducers. Two multistate centers, under contract to the National Library Service, store and distribute books and other materials in their geographical regions. The Librarian has estimated a readership of 784,000 individuals in fiscal year 1998.

Appropriations, 1998	\$29,077,000
Budget estimate, 1999	30,200,000
Committee recommendation	29,600,000

The Committee recommends an appropriation of \$29,600,000, which is \$523,000 above the enacted level and \$600,000 below the request.

This appropriation provides for salaries and expenses associated with the distribution of Government documents to depository and international exchange libraries, the cataloging and indexing of Government publications, and the distribution of publications authorized by law at the request of Members of Congress and other Government agencies.

The Committee has reduced the FTE level by 200. GPO currently has approximately 100 unfilled FTE positions. Recent migration to a direct-to-plate technology will result in an additional reduction of 113 FTE’s, plus normal attrition will result in an additional reduction in FTE’s. The funding provided has been reduced to correspond to this FTE reduction.

The Committee is disappointed with the Public Printer’s response to the Booz-Allen management review. The GPO shall provide the appropriate committees a quarterly report addressing each specific recommendation and the action that the Printer has taken

to implement each recommendation. The inspector general is instructed to monitor implementation of the cost-saving recommendations and report quarterly to the appropriate committees on his findings.

The Committee bill continues the limitations on reception and representation expenses and costs of attendance at meetings. Appropriations, 1998	\$339,499,000
Budget estimate, 1999	367,728,000
Committee recommendation	363,298,000

The Committee recommends funding of \$363,298,000 for salaries and expenses of the General Accounting Office, which will support an FTE level of 3,300 FTE's. Additionally, \$2,000,000 is authorized in offsetting collections derived from rent receipts and reimbursements for conducting financial audits of Government corporations. The direct appropriation is a reduction of \$4,430,000 from the budget request and an increase of \$23,799,000 over the fiscal year 1998 level.

The Committee has provided funding for 75 of the 100 requested additional FTE's. The Committee expects that a minimum of one-third of those positions will be in the information technology area and that GAO will be prepared to provide the Congress with the necessary support in the information technology area, particularly with the year 2000 technology problem.

TITLE III—GENERAL PROVISIONS

In addition to several routine general provisions carried annually in the bill (secs. 301–307), the Committee proposes additional general provision (secs. 308–311), as follows:

Section 301 bans the use of appropriated funds for service and maintenance of private vehicles, except under such regulations as may be promulgated by the House Oversight Committee and the Senate Rules and Administration Committee respectively.

Section 302 limits the availability for obligation of appropriation to the fiscal year for which it is expressly provided in the bill accompanying this report.

Section 303 provides that any pay rate and title designation for staff position created in this act, and not specifically established by the Legislative Pay Act of 1929, is to be made permanent law by this act. Further, any pay rate and title change for a position provided for in the 1929 act is to be made permanent law by this act and any changes in the official expenses of Members, officers, and committees, and in the clerk hire of the House and Senate are to be made permanent law by this act.

Section 304 bans the use of funds for contracts unless such contracts are matters of public record and are available for public inspection.

Section 305 appropriates such sums as may be necessary for the payment of settlements and awards pursuant to Public Law 104–1.

Section 306 authorizes legislative branch entities participating in the Legislative Branch Financial Managers Council [LBFMC] to finance the costs of the LBFMC.

Section 307 amends section 316 of Public Law 101–302 to extend for 1 year the availability of funds for the Senate art collection.

Section 308 provides the Public Printer with the authority given to all heads of agencies in section 155 of the Energy Policy Act of 1992 regarding contracting with energy services companies. GPO estimates that this provision has a potential annual savings of \$500,000. Savings would be used to fund necessary upgrades to utilities.

Section 309 provides for the permanent reauthorization of the American Folklife Center.

Section 310 provides for the reimbursement of funds improperly transferred from the Government Printing Office revolving fund and clarifies that GPO is not subject to section 8147 of title 5.

TITLE IV—TRADE DEFICIT REVIEW COMMISSION

The economic situation in east and Southeast Asia will have ongoing implications for the United States in its economic and trade relationships, both in the short and long term. Among the potential impacts is a significant increase in the U.S. trade deficits. The need for a comprehensive review of U.S. trade and economic policies and their relationship to U.S. trade deficits is long overdue. It is time to establish a commission to review the trade deficit.

The Committee notes that since the last comprehensive review of national trade and investment policies was conducted by a Presidential Commission in 1970, there have been massive worldwide economic and political changes which have profoundly affected world trading relationships. Globalization, the increased mobility of capital and technology, the role of transnational corporations, and the outsourcing of production across national boundaries, are reshaping both the comparative and competitive trade advantages among nations.

The United States is once again at a critical juncture in trade policy development. There is need for a new consensus on trade policy for the future. The nature of the U.S. trade deficit and its causes and consequences must be analyzed and documented. This is the purpose for the Trade Deficit Review Commission.

Persons appointed to this Commission should be individuals who have expertise in economics, international trade, manufacturing, labor, environment, business, and similar pertinent qualifications and experience. In appointing Commission members every effort should be made to ensure that its members are representative of a broad cross-section of economic and trade perspectives. In addition, the members should be able to provide fresh insights to analyzing the causes and consequences of the U.S. merchandise trade and current account deficits.

The Committee expects that members would be appointed not later than 60 days after the date of enactment, and the appointments would be made for the life of the Commission. In case of a vacancy, it would be expected that the vacancy would be filled in the same manner as the original appointment.

The Commission will be responsible for developing trade policy recommendations, by examining the economic, trade, tax, and investment policies and laws, and other incentives and restrictions that are relevant to addressing the causes and consequences of the U.S. merchandise trade and current account deficits.

In examining and making its recommendations to Congress and the President, the Commission is expected to review the manner in which the Government of the United States establishes and administers the Nation's fundamental trade policies and objectives. This includes the relationship of the merchandise and current account balances to the overall well-being of the U.S. economy and any im-

pact trade balances may have on wages and employment in various sectors of the U.S. economy. It should also review any effects the merchandise trade and current account deficits may have on the areas of manufacturing and technology and on defense production and innovation capabilities of the United States.

The Commission should consider the impact that the U.S. monetary and fiscal policies may have on U.S. merchandise trade and current account deficits. It should also review the coordination, allocation and accountability of trade responsibilities among Federal agencies and the means for congressional oversight of the trade policy process.

It is expected that the Commission will examine the causes and consequences of the merchandise trade and current account deficits and specific bilateral trade deficits. This should include the identification and quantification of the macroeconomic factors and bilateral trade barriers contributing to the U.S. merchandise trade and current account deficits. It should also include the identification and quantification of any impact of the merchandise trade and current account deficits on the domestic economy, industrial base, manufacturing capacity, number and quality of jobs, productivity, wages, and the U.S. standard of living.

In addition, the Commission should identify and quantify the trade deficits within individual industrial, manufacturing, and production sectors, and any relationship to intraindustry and intracompany transactions. The Commission should review the adequacy of the current collection and reporting of import and export data, and the identification and development of additional data bases and economic measurements that may be needed to properly quantify these factors.

The Commission is expected to determine the relationship that tariff and nontariff barriers may have to the merchandise trade and current account deficits and the extent to which such deficits have become structural. It should also determine the extent to which there is reciprocal market access substantially equivalent to that afforded by the United States in each country with which the United States has a persistent and substantial bilateral trade deficit. It should consider the impact of transshipments on these bilateral trading relationships.

The Commission is expected to examine the relationship of U.S. merchandise trade and current account deficits to both comparative and competitive trade advantages within the global economy. This should include a systematic analysis of the U.S. trade patterns with different trading partners, to what extent the trade patterns are based on comparative and competitive trade advantages, and how the trade advantages relate to the goods that are exported to or imported from various trading partners.

In this review, the Commission should determine the extent to which the increased mobility of capital and technology has changed both comparative and competitive trade advantages, the extent to which differences in the growth rates of the United States and its trading partners may impact on U.S. merchandise trade and current account deficits, and any impacts that labor, environmental, or health and safety standards may have on world trade.

The Commission should examine the impact that currency exchange rate fluctuations and any manipulation of exchange rates may have on U.S. merchandise and current account deficits. It should also review the effect that offset and technology transfer agreements have on the long-term competitiveness of the U.S. manufacturing sectors, and any effects that international trade, labor, environmental, or other agreements may have on U.S. competitiveness.

The Commission should consider the flow of investments both into and out of the United States, including any consequences for the U.S. economy of the current status of the United States as a debtor nation. It should determine the relationship between such investment flows and the U.S. merchandise and current account deficits, living standards of U.S. workers, U.S. labor, community, environmental, and health and safety standards, and how such investment flows influence the location of manufacturing facilities. It should also examine the effect of barriers to United States direct investment in developed and developing nations with which the United States has a merchandise trade and current account deficit.

It is the hope of the Committee that following such extensive study and review that the report produced by this Commission would lead to the development of a new understanding of the importance of our Nation's trade relationships and a new consensus of how this Nation should proceed in order to meet the challenges of a globalized world economy.
